

How etreev Helps with LEED Certification

If your company is pursuing LEED certification, etreev can help! Our services are perfect for getting you needed credits – here's how:

Existing Buildings

Materials & Resources, Credits 2.1 – 2.5

Your company receives one point for every 10% of total purchases that contain a majority (70%) of on-site reused materials (up to 5 points).

- ✓ Etreev provides a simple web based system for internal reuse that automatically matches needs in one department with surplus in another. Internal reuse not only saves money but is often the most environmentally friendly method of materials disposition.

Materials & Resources, Credits 5.1 – 5.3

Your company can get up to 3 points for diverting materials from the waste stream.

- ✓ Etreev diverts clients' materials by selling or donating them to local organizations
- ✓ Etreev uses the iReuse system, which has helped divert 2 million pounds of materials from landfills

Etreev provides you with full reporting on all items removed from your facility, including disposition methods and corresponding environmental impacts

Innovation in Design, Credit 1

- ✓ Working with etreev may qualify your company for 1-4 additional credits in this category.

New Construction, Commercial Interiors, or Core & Shell

Materials & Resources, Credits 2.1 – 2.2

Get up to 2 points for reusing construction waste such as lumber, doors, and tile.

- ✓ The etreev network includes hundreds of nonprofit organizations and buyers in need of construction materials. Etreev instantly matches your construction materials with this database and contacts potential recipients to streamline the matching process.

Materials & Resources, Credit 3

Get 1-3 points for utilizing used building materials and furniture

- ✓ Etreev automates the process of finding used materials and furniture for your facility. Simply create a free wish list on the etreev system, and etreev will notify you when your requested items are available for purchase.

Innovation in Design, Credit 1

- ✓ Working with etreev may qualify your company for 1-4 additional credits in this category
